

a verb, it has tense and voice and may be either transitive or intransitive. As an adjective it is declined and agrees with its noun in gender, number and case.

3. Gerund

The gerund is the infinite declined.

nom. laudare
gen. laudandi

It governs the same case as the other forms of the verb; ars scribendi epistulas, the art of writing letters.

4. Gerundive

If the gerund requires the accusative, it can be changed to the form of the passive future participle ending in "ndus, a, um"; the object however, which should be in the accusative, may be used in the case of the gerund.

The participle takes the gender and number of the substantive. This form is called gerundive. It serves to express an action to be completed; ars epistularum scribendarum.

Canticum Zachariae

Benedictus Dominus, Deus Israel, quia visitavit et fecit redemptionem plebis suae.

Et erexit cornu salutis nobis in domo David pueri sui,

Sicut locutus est per os sanctorum, qui a saeculo sunt, prophetarum eius.

Salutem ex inimicis nostris, et de manu omnium, qui oderunt nos:

Ad faciendam misericordiam cum patribus nostris, et memorari testamenti sui sancti;

Ius iurandum, quod iuravit ad Abraham patrem nostrum, datum se nobis;

Ut sine timore, de manu inimicorum nostrorum liberati, serviamus illi.

In sanctitate et iustitia coram ipso omnibus diebus nostris.

Et tu, puer, propheta Altissimi vocaberis; praefectis enim ante faciem Domini parare vias eius.

Ad dandam scinetiam salutis plebi eius, in remissionem peccatorum eorum.

Per viscera misericordiae Dei nostri, in quibus visitavit nos oriens ex alto.

Illuminare his, qui in tenebris et in umbra mortis sedent, ad dirigendos pedes nostros in viam pacis.
